PAKI G.	READING	1/DIS)												

. Read the passage and choose the best answer A, B, C or D.

Taj Mahal, a mausoleum in Agra, India, regarded as one of the most beautiful buildings in the world. The Mughal emperor Shah Jahan had it built in memory of his wife, Arjumand Banu Bagam, known as Mumtaz Mahal (Persian for "Elect of the Palace"), who died in 1631.

Building commenced about 1632. The mausoleum was complete by about 1643 and the surrounding complex of buildings and gardens was complete by about 1653. Situated on the southern bank of the Yamuna River, the white marble mausoleum is composed of four identical facades, each containing a large central arch 33 m (108 feet) high. A large bulb-shaped dome, over 73 m (240 ft) tall, rises over the center, with four smaller domes surrounding it. The building is raised on a square podium with a *minaret* at each corner. It is flanked by two red sandstone buildings-a mosque and its replica, the *Jawab* (Answer), a building of which the main function is visual balance. Visitors approach the Taj Mahal through an imposing red sandstone gate, decorated with inscriptions from the Muslim holy book, the Qur'an (Koran). The gate and accompanying walls also contain a vast, geometrically laid out garden, 305

m (1,002 feet) on each side. The enclosed garden, itself a Muslim symbol of paradise, is centered on a large, raised pool. Canals divide it into four equal parts, each containing flower beds, fountains, and cypress trees (symbols of death). Inside the Taj Mahal, the tomb of Mumtaz Mahal stands at the center of an octagonal hall, while the slightly larger tomb of Shah								
Jahan, who died in 1666, is off to of filtering through an elaborately carve 21. What is the Taj Mahal?			ous stones, illuminated by sunlight					
A. A temple	B. A monument	C. A tomb	D. A shrine					
C. The front of the building is similar	Mughah emperor Shah Jahan. ar in all sides.	B. It took approximately 20 years to complete the mausoleum. D. The mausoleum has four domes around it.						
23. The word 'minaret' in line 8 is <i>A. tower</i>	B. mosque	C. altar	D. statue					
24. The Jawab		D has a major function of d						
A. is a mosque where people worst C. was decorated with inscriptions		B. has a main function of decorating. D. was built by red stones.						
II. Fill each blank with a suitable		D. was built by rea stories.						
		present a long-term (25)	to the environment. All three					
			can use. The carbon dioxide then					
accumulates in the atmosphere and may even increase the earth's 'heat load' and lead to global rise in temperature. Furthermore, all three fossil fuels are (27) forms of energy. Geothermal power is unlikely ever to be an energy source of major importance. It is limited and is exploitable in only a few places. Hydro-power offers a much more useful source of energy. It is also renewable but its availability is limited. Dams cannot be built in certain areas. In addition, large dams are also (28) of causing changes in the world's climate								
25 A warning	B. fight	C. threat	D. demand					
26. A. more 27. A. renewed	B. far	C. verv	D. every					
27. A. renewed	B. non-renewed	C. very C. renewable	D. non-renewable					
28. A. consisting	B. composed	C. capable	D. typical					
PART D. WRITING (3pts) I. Give the correct forms of the w	ords in brackets.
